INSTALLING AND CONFIGURING FIELDPRO

STEPS	INSTRUCTIONS	ASSOCIATED IMAGES
1	Using an iPad, Navigate to the App Store. Search for and Select Futura FieldPro . Tap Open to launch the application.	
2	Tap Allow to enable the app to use your location.	

<p>3</p>	<p>Register FieldPro using the utility's Futura Software Username and Password.</p> <p>Tap Login</p> <p><i>*If you do not know the User ID or Password, call Futura support at (678) 906-2575.</i></p>	
<p>4</p>	<p>Select FieldPro Basic & any Module(s) purchased.</p> <p>Tap Submit.</p>	
<p>5</p>	<p>You will be prompted to Enter your map server IP address. Example: 10.1.20.49.</p> <p>Leave the Map Server Port field blank.</p> <p>Tap Done.</p>	

6	<p>Please allow the map to download automatically.</p> <p>The download appears above the bottom menu.</p>	
7	<p>FieldPro configuration is complete.</p>	

EXPECTED RESULTS

Your map should appear after a small download delay.

Basic navigation instructions may be found in the User Guide.

Tap the Settings Cog

Tap the word **Help** located in the top right section of the Settings.

EXCEPTIONS AND ESCALATION

If the map does not begin to download automatically,

ensure you have a Green GIS icon in the lower right corner of the screen. Proceed to Troubleshooting Step 1.

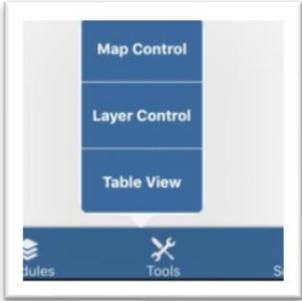

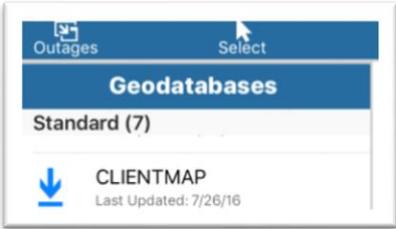

If the GIS icon is red, confirm connection settings with your IT department. If the issue persists, contact Futura Support at (678) 906-2575.
